Student Handbook Guidelines for Mask Compliance - Noncompliance with Safety and Health Procedures. Upon **first offense**, the student will be given a warning, and will be instructed by the teacher or staff member/administration regarding safety policy and

regulations and a phone call will be made to a parent/guardian documenting the warning. A **second offense** will result in parent/guardian contact by a school administrator notifying the parent/guardian that the next offense will result in the student being designated as a virtual learner. A **third offense** shall be documented and the parent/guardian will be notified of the student being designated as a virtual learner and excluded from in-person enrollment at school for all curricular, extra-curricular, and co-curricular activities.

Short Term E-Learning

Parents, if you have a student that has been asked by school Health Officials to be quarantined for a certain number of days please be sure your student is completing their classroom assignments. This short term e-learning should occur by having your student check email, Google Classroom, and Canvas daily. Teachers will utilize these three platforms to communicate student work. It would also be helpful to have your student reach out to their teachers via email.

What Communication to Expect with COVID-19 Cases

Based on recent COVID-19 cases in other school districts, the Mt. Vernon Community School Corporation is preparing for positive cases in our school buildings. MVCSC has developed many protocols to provide a safe and healthy learning environment for students and staff. Staff and parents/guardians should also be prepared for students and staff to not be in attendance, possibly for a period of time.

As of August 13, our plans for when Mt. Vernon has a case of COVID-19 include:

- Each positive case of COVID-19 or COVID-19 exposure will be addressed individually.
- Parents/guardians will receive a phone call, and/or notification from the school via ParentSquare if their child was in close contact and needs to be quarantined or is affected by the case in any way. The Indiana State Department of Health may text from 877-548-3444 or call from 833-670-0067 (displayed as “IN Health COVID”); parents/guardians are encouraged to answer calls/texts from these numbers and MVCSC.
- Parents/guardians will not receive notice if there is a COVID-19 case in their school unless it reaches the level that the school must be closed.
- The media may end up reporting on positive cases if they inquire, but they will not receive any additional details other than the number and a generalized statement.
- We ask the community to NOT make efforts to figure out who the positive case is. If you happen to learn of a positive case from someone else, you should not share that information with others.

- At times, the parent/guardian phone call may have to identify a cohort of students that is being quarantined. We ask parents/guardians and staff to keep this information to yourself and not share it with others. We are asking you to respect the privacy of others in our community who are going through a stressful time.
- Staff who need to know if a student or staff member will be absent will receive this information from their principal/supervisor. This private information is a need-to-know basis.

When COVID-19 positive cases impact our schools, rest assured that we are cognizant of the balance between the needs of all of our families and staff members and the confidentiality we need to provide through FERPA to the infected/potentially infected individual(s). Please be comforted in knowing that when someone is not at school, it could be for a myriad of reasons, and most of those are private. We have developed a system of contact tracing that is robust and detailed to ensure those who need to know will receive information and directions very quickly.

Our community has a history of rallying around the needs of our schools and we are working diligently to provide the best opportunity to keep schools in session for as long as we can. Working together by communicating well and self-screening children on a daily basis (keeping them home if they exhibit a symptom of COVID-19) is essential. Our shared efforts to ensure that we are doing our part in mitigating the spread of COVID-19, as well as maintaining a positive learning environment for our students and staff, is key to meeting the needs of our students during this historic time.

Thank you for your support and understanding. We are prepared to provide a wonderful experience for our students and look forward to supporting their learning and emotional needs as we begin the 2020-2021 school year.
